

**Excellence in Environmental &
Emergency Solutions**

www.nrcc.com

Established in 1992, NRC is a global provider of environmental, industrial and emergency solutions.

We work in partnership with clients to support their business activities worldwide, delivering comprehensive, cost-effective, and safety-driven solutions even under the most challenging conditions. NRC is dedicated to providing superior environmental services and ensures its clients are prepared for all eventualities, responding swiftly, and effectively whenever and wherever emergencies occur. We coordinate our global emergency response activities from a 24/7 International Operations Center (IOC) based at our corporate headquarters in Great River, New York.

We have an unyielding commitment to quality and safety. As an ISO 9001, 14001 and OSHAS 18001 certified organization, safe operations, and protection of the environment are paramount.

NRC offers a variety of services worldwide including:

- Oil Spill Response Management & Clean-up
- Hazardous Material Response Management & Clean-up
- Fire Fighting & Rescue
- Waste Management
- Site Remediation
- Industrial Cleaning
- Consultancy & Training
- High Hazard Response & Incident Management
- Cylinder & Bulk Compressed Gas Emergencies
- PIH & TIH Response

NRC serves and supports a diverse range of industries and organizations:

- Oil & Gas, Upstream & Downstream
- Tanker, Dry Cargo Vessels, and Barges
- Power Generation
- Chemical & Pharmaceutical
- Ports & Terminals
- Airports & Airlines
- Rail
- Manufacturing
- Government & Military
- Engineering & Construction
- Healthcare

Oil Spill & Hazardous Material Response

Having responded to thousands of marine and land-based oil and hazardous material (HAZMAT) spill incidents around the globe, our expertise in this field is unsurpassed. NRC tailors its services to meet each client's specific needs and delivers a recognized and proven standard of excellence. NRC provides oil spill services to offshore exploration & production activities around the world and coverage to more than 17,000 marine vessels, and some 1,400 assorted marine facilities, refineries and pipelines.

Services include:

- Incident Response, Management & Clean-up
- Establishment & Management of Oil Spill & HAZMAT Response Centers & Teams
- Equipment Rental, Supply, Commissioning & Maintenance
- Response Exercise Design, Delivery & Evaluation
- Plan Development, Review & Management
- Gap Analysis & Preparedness Audits
- Risk Assessment & Facility Inspection
- Reactive and Explosive Response

NRC works with its customers in the design, establishment, and management of all their oil spill response requirements and provides customized equipment packages for ports, terminals, and oil & gas exploration and production activities.

Fire Fighting & Rescue

With extensive global experience in emergency response, NRC provides fire fighting and rescue services to a broad range of sectors including metals, oil & gas, rail, aviation, petrochemical, and other high-risk industrial facilities. Services include:

- Provision of Stand-by Fire Crews
- Fire Response
- Technical Rescue
 - High Angle
 - Confined Space
 - Road Traffic Accident
 - Marine
- Maintenance & Inspection of Fire Systems
- Risk Assessment & Plan Development
- Facility Fire Prevention & Safety Audits

All fire fighting services are designed to meet a variety of international benchmarks and our emergency response personnel are trained to the highest of standards. We work closely with our clients to deliver customized fire and rescue services to suit their specific operational conditions.

Environmental & Industrial Services

NRC has over 20 years of experience providing a diverse array of waste management, site remediation, and industrial cleaning services. Whether it be tailoring an operation to achieve waste minimization, containment of soil or groundwater contamination, or remediation of petroleum pipelines, NRC works closely with its clients to achieve their goals in a timely and cost-effective manner.

Services include:

- Waste Management
 - Waste Analysis & Profiling
 - Waste Consolidation
 - Lab Packing Services
 - Hazardous Waste Recycling & Disposal
 - Waste Transportation & Disposal
- Industrial Services
 - Tank Cleaning and Removal
 - Hydroblasting/Pressure Washing
 - Pumping & Transfer
 - Pipeline Cleaning & Pigging
 - Facility Decontamination
 - Asbestos and Lead Remediation
- Site Remediation
 - Excavation & Removal of Contaminated Materials
 - Insitu and Existu Remedial Systems Installation
 - Soil Stabilization & Bioremediation
 - Sediment Remediation
 - Wetland Mitigation
 - Manufactured Gas Plant Remediation
 - Excavation Support Services
 - Facility Decommissioning and Demolition
 - Geotechnical Environmental Services

Consultancy & Training

Providing a full range of prevention, preparedness, and response consultancy and training services, we ensure our clients maintain an effective capability and readiness to manage a wide variety of emergency events. Our services include:

- Regulatory Review & Assessment
- Vessel & Facility Assessments, Inspections & Audits
- Emergency Response Planning
- Drill & Exercise Design & Management
- Training, including:
 - Oil Spill Preparedness & Response (IMO & MCA levels)
 - Hazardous Material (HAZMAT & HAZWOPER) & HNS Response (NFPA OSHA & IMO levels)
 - Fire Fighting (NFPA levels)
 - Incident Command System (ICS 100, 200, 300, 400, and course specific training)
 - Flammable Liquid Fire Suppression
 - Basic and Advanced Foam Application

Products

NRC is an industry leader providing high quality environmental products, emergency response equipment, specialized firefighting equipment, and systems to help our clients achieve cost effective solutions from the arctic to the tropics.

NRC specializes in the provision of the following products:

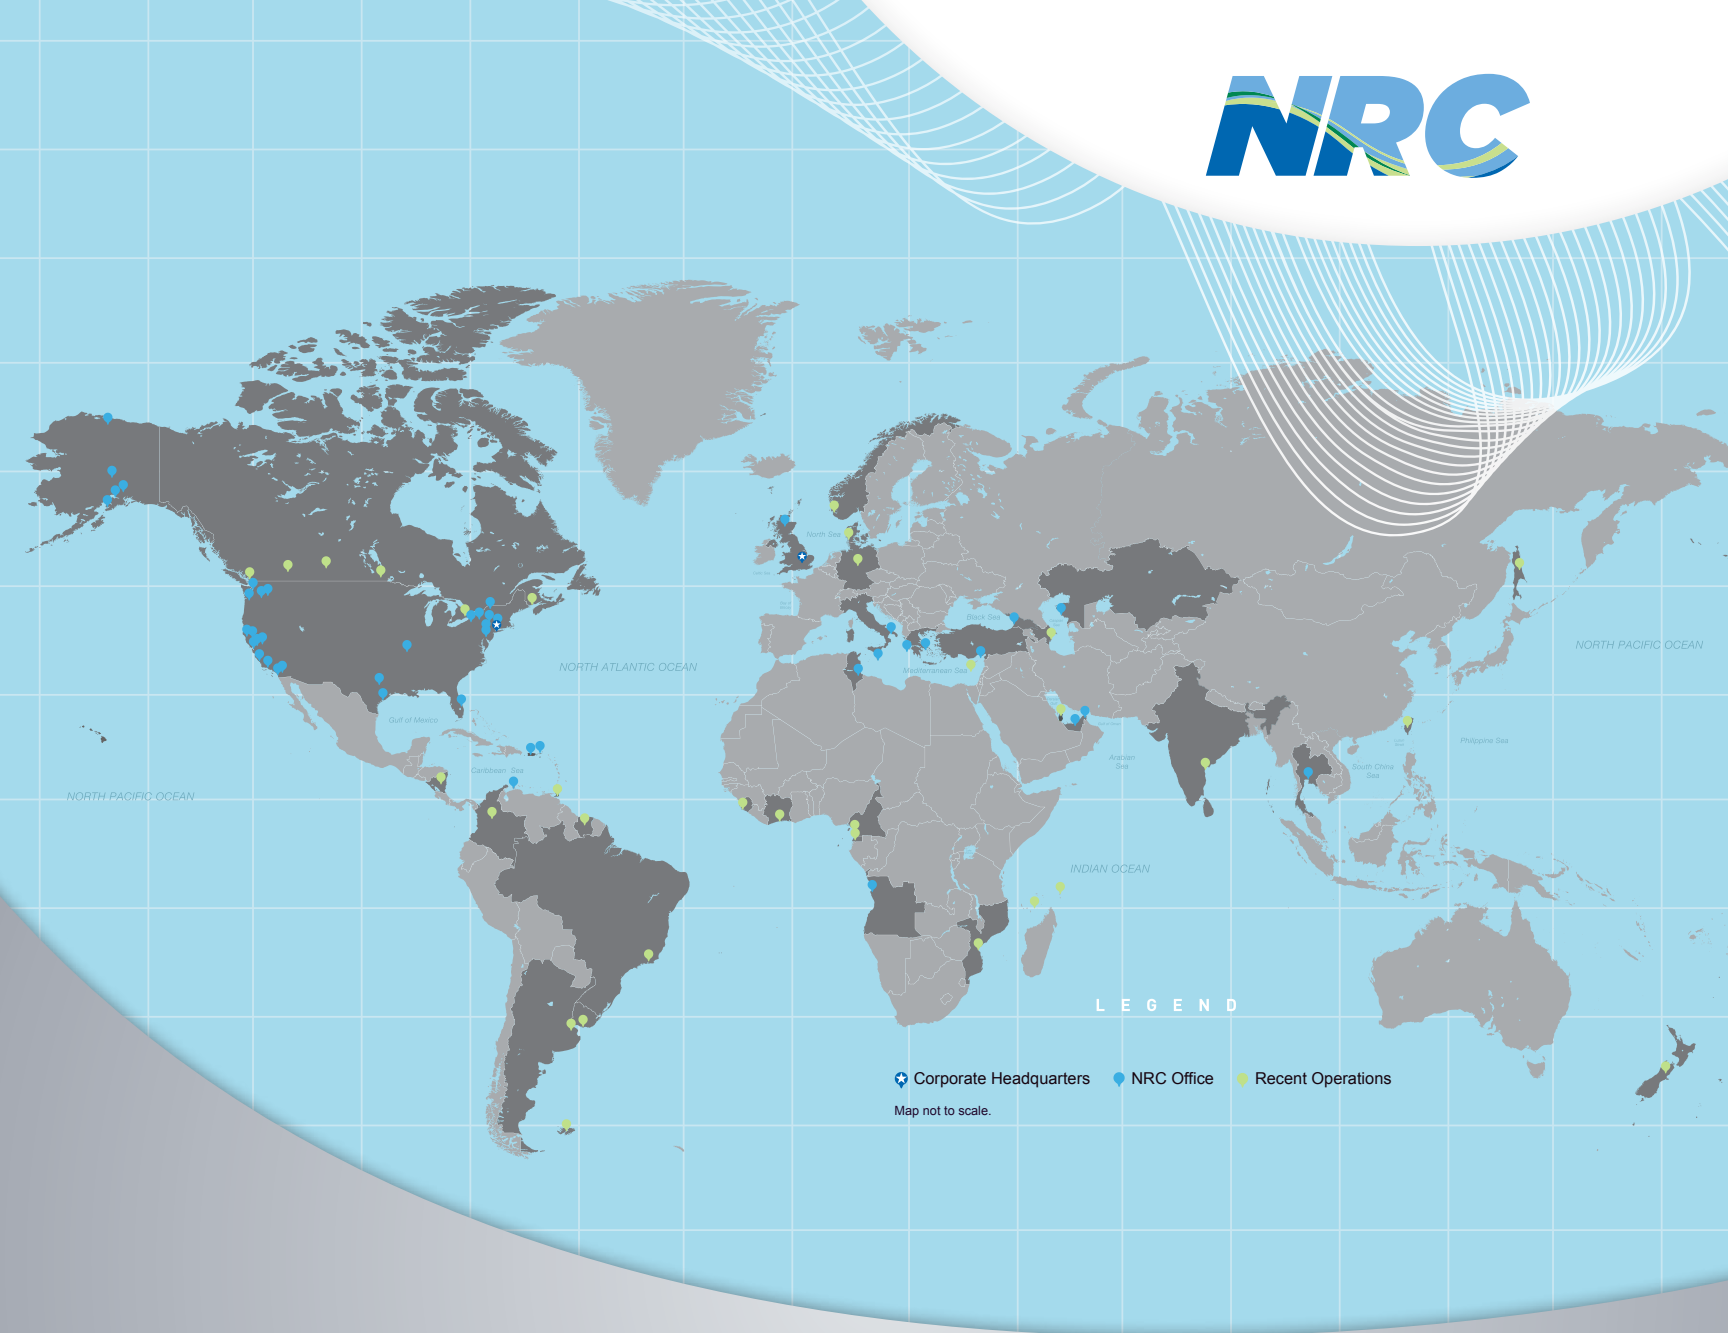

- Oil Spill & HAZMAT Containment & Recovery
- Decontamination Equipment
- Spill Kits & Sorbent Materials
- Pumps & Storage
- Security Products
- Design & Fabrication of Specialized Firefighting Equipment
- Fabrication of Custom Chemical Response Equipment

NRC Mission Statement:

As a global environmental services company, NRC provides a wide range of response, industrial, remediation, marine, consulting and training services. We are committed to the principles of safety, superior customer service, innovation, and quality. NRC works in partnership with our clients to deliver comprehensive and cost-effective solutions to the energy, manufacturing, transportation, engineering and construction, and healthcare industries worldwide.
