Alaska's School Climate & Connectedness Survey[©] (SCCS)

What is SCCS?

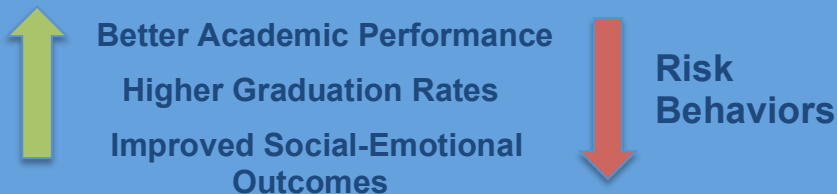

AASB's School Climate & Connectedness Survey (SCCS) is a voluntary statewide survey developed by American Institutes for Research (AIR) in partnership with AASB in 2006.

Through student, staff and family responses, the survey measures:

- ☐ How students, staff, and families view school climate.
- ☐ How connected students feel to adults and peers.
- ☐ Social and emotional learning (SEL).
- ☐ Observed risk behaviors at school or school events.

Research Indicates a Positive School Climate Leads to:

AASB's Survey Package Includes:

- ☑ **Interactive Survey Platform (with Panorama Education)**
 - Usable on most handheld, laptop and tablet devices.
 - Real-time dashboard for participation
 - Produces on-line interactive school and district reports

- ☑ **Younger student survey option** (grades 3-5) & **Family survey option**

- ☑ **Ongoing technical assistance and support**
- ☑ **Customized questions option**

- ☑ **Additional data analysis as requested**

- ☑ **Support on how to use survey results**, which includes on-site workshops led by AASB staff:
 - School Board Work Sessions
 - Staff In-Service
 - Student Workshops
 - Community Meetings
