WHAT IS THE SCHOOL CLIMATE & CONNECTEDNESS SURVEY?

SCCS is a voluntary statewide survey developed by American Institutes for Research (AIR) in partnership with AASB. This research-backed survey collects valid and reliable perception data from students, staff, and families to better understand and build a positive school climate in your school district.

SURVEY PACKAGE INCLUDES:

1. Access to all surveys: Student Grade 3-5 Survey, Student Grade 6-12 Survey, Staff Survey, Family Survey.
2. Interactive survey platform (with Panorama Education) for survey administration. Includes:
 - Disaggregate data by subgroups including race/ethnicity, gender, grade level.
 - Real-time dashboard for participation.
 - Set a baseline and see trends over time.
 - See strengths and areas for growth.
 - Interactive school and district reports.
3. Tailored support from AASB on how to use survey results; includes on-site or virtual workshops.
4. Ongoing technical assistance and support, including webinars, 1:1 support, and survey proctor guides.
