

## Transforming Schools Toolkit 3(b)

### Policy Question Formulation Activity

This activity is based off on the process offered through the Right Question Institute. This can help teams think more critically around policies that impact trauma-engaged schools.

Steps:

1. Brainstorm all questions you have around policies and trauma engaged schools.
2. Do not judge questions write all of them down exactly as stated.
3. Make sure all of the suggestions are changed into questions?

As a group identify your top 3 policy questions that will help you consider trauma engaged school policies.

<b>Priority Question</b>	<b>What level of Policy</b>	<b>Who should you ask the question?</b>	<b>What specific policy will this help to address?</b>	<b>Intended trauma informed outcome?</b>
