Kusilvak Career Academy

Welcome to Kusilvak Career Academy (KCA), where post-secondary dreams can come true. KCA, located at 4335 Wisconsin Street in Anchorage, Alaska, is an extensively renovated, former hotel that was purchased by the Lower Yukon School District (LYSD) in January of 2019. The property features three separate buildings, a boys dorm, a girls dorm, and a main building that includes a cyber learning center/classroom, a kitchen and rec area, and admin offices with housing upstairs. The boy's and girl's dorms each have 18 rooms, 28 beds, and laundry facilities.

KCA serves two purposes:

1. It serves LYSD juniors and seniors who access Anchorage School District's King Tech High School CTE programs while allowing them to work on LYSD graduation requirements via distance; and
2. It serves as a conduit to college path for LYSD qualifying students to access Alaska Middle College School (AMCS) in Anchorage.

AMCS

Alaska Middle College School (AMCS) is a collaboration between the Anchorage School District and the University of Alaska Anchorage.

- Successfully completing college coursework will result in a student earning an ASD high school diploma and credits toward a UAA Associate of Arts degree.
- Alaska Middle College School is a choice school for incoming juniors.
- Students build college readiness skills to achieve success in college level academics.
- Students of AMCS attend classes both at King Tech High School and on the University of Alaska, Anchorage Main Campus.
